

# Community centre Pro bohatší život

Day care centre

**Term project**  
1st September 2019  
– 31st August 2020

**Address**  
Družstevní 767  
735 81 Bohumín

**Target group**  
Children, youngsters  
and adults

## Activities

You will be involved in numerous activities organized by our centre such as the language club where you can give conversation classes to children as well as general public. The community has also a theatre club „Mraveneček“ where you can participate. During the summer time we organize a Fulhaus camp with workshops, canoeing trip and other activities. And regarding life of the centre during the week, you will prepare the programme for the kids which will visit us after school (cooking classes, presentation on various topics, prepare posters, etc.). The idea is to give you a chance to show your creativity and enthusiasm to work with young people. Often during the events, you will be asked to take photos, shoot videos and prepare refreshments. Many activities are in a group, so you can learn new skills of group leading and presentation. It's crucial to have a positive attitude towards sports in general as sporting activities form an integral part of the centre's life.

## Challenges

In our centre you will have a space to prepare your mini project. You can relate it to activities with kids during the week. Another way is let us know some information about your country, traditions, habits – by cooking your traditional meals or presentation differences between our countries. You can also improve your communication with the target group and your Czech language skills.

## Your profile

In our team we need to have a responsible and honest person who has a good relationship with the target group in our centre. If you have experience with young people and children, this is definitely an advantage. To make your service as useful as possible it is important to be proactive and open to learn a new things (for example Czech language). You also need to be patient, empathic and respectful.
